LIFECYCLE REDESIGN

🗺 The Unified EduPath Lifecycle Journey

An end-to-end blueprint harmonizing the learner, parent, and educator experiences across six interconnected stages: **Sign Up & Onboarding**, **Selecting Teacher**, **Payment & Booking**, **Joining Lesson**, **Assessment & Testing**, and **Results & Reporting**.

END-TO-END CIRCULAR LEARNING LOOP

✦ Detailed Stage Breakdown & User Experience Blueprint

1 Sign Up & Diagnostic Onboarding

Personalized Profile Genesis

Replaces generic authentication forms with an active 3-step profile calibration wizard. Captures grade level, subject interests, and baseline aptitude.

- **Role Selection:** Student, Parent, or Teacher with dedicated profile fields.
- **5-Minute Adaptive Diagnostic:** Calibrates entry difficulty (skippable).
- **Parent-Student Linkage:** One-click invite code generates linked oversight.

2 Teacher Discovery & Matching

Transparent Educator Marketplace

Empowers students and parents to discover vetted instructors through rich credential cards, video intros, reviews, and interactive calendar availability.

- **Verified Badges & Ratings:** Real student reviews and mastery pass rates.
- **Subject Specialties:** Clear subject tags (Math, Science, English, etc.).
- **Live Slot Picker:** View upcoming open lesson slots in the student's timezone.

3 Transparent Payment & Booking

Frictionless Checkout

Eliminates hidden costs with upfront pricing. Supports single session bookings, discounted monthly tutoring packages, and instant booking confirmation.

- **Flexible Tiers:** Pay-per-lesson ($25–$45) or Monthly Pass (-15%).
- **One-Click Calendar Sync:** Downloadable .ics and Google Calendar integration.

4 Joining Lesson & Virtual Classroom

Interactive Learning Space

A persistent session hub with countdown timer, 1-click meeting launch, shared interactive whiteboards, curated agenda checklist, and downloadable notes.

- **Pre-Session Notification:** 15m alert with direct "Enter Classroom" button.
- **Integrated Media:** Video stream, digital whiteboard, and syllabus sync.

- **Satisfaction Guarantee:** Free cancellation up to 12 hours prior to start.

- **Post-Session Wrap:** Teacher tags completion & attaches post-quiz check.

5 Assessment & Adaptive Testing

Adaptive Test Engine

Dynamic item difficulty scaling (Easy ➔ Medium ➔ Hard) based on live student performance, complemented by focus-tracking anti-cheating heuristics.

- **Contextual Micro-Checks:** 5-question quizzes following live lessons.
- **Dynamic Question Calibration:** Tests adapt to student mastery live.
- **Cheating Detection:** Tab-switch and window-blur analytics protection.

6 Results, Analytics & AI Reporting

360° Multi-Stakeholder Intelligence

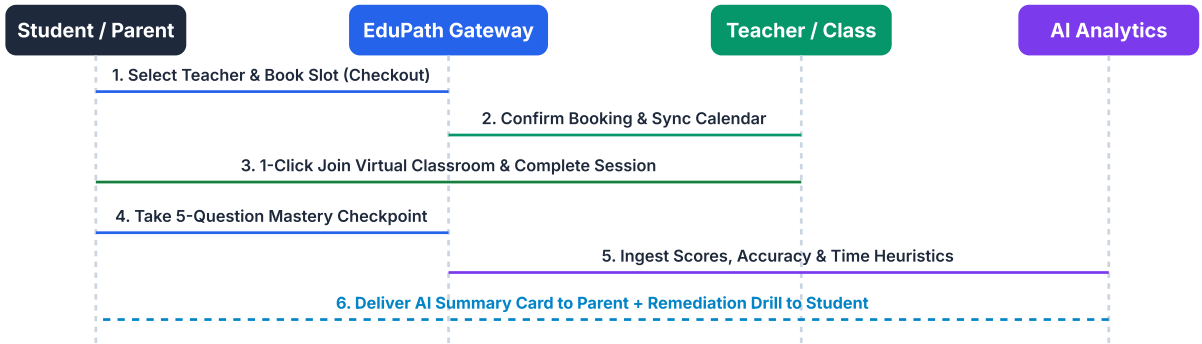

Immediate, actionable feedback tailored for all three user roles: Student (AI tutor breakdown), Teacher (curriculum heatmap), and Parent (weekly summary).

- **Student Growth:** Confetti celebration, XP, and question-level AI explanations.
- **Parent AI Summaries:** Natural language reports highlighting mastery areas.
- **Automated Retraining Loop:** Auto-generates targeted practice drills.

Lifecycle Transformation Matrix (Before vs. After)

LIFECYCLE STAGE	LEGACY BASELINE	REVISED EDUPATH EXPERIENCE
1. Sign Up & Onboard	Basic Standard email/password form; empty dashboard on entry.	Personalized Multi-step onboarding with grade selection, goal setting, and 5-min diagnostic placement test.
2. Select Teacher	Static Directory list with simple "Enroll" button; no pricing or schedule.	Marketplace Rich cards with student ratings, video intro, transparent per-lesson pricing, and live calendar slot selector.
3. Payment & Booking	Unsurfaced Teacher ledger only; students had no checkout or booking flow.	Integrated Frictionless modal with Single Session vs. Monthly Pass tiers, instant receipts, and auto calendar sync.
4. Joining Lesson	Syllabus Files Static list of uploaded lesson files in unit accordions.	Classroom Hub Upcoming lesson countdown banner, 1-click room entry, live whiteboard, agenda, and in-session notes dock.
5. Assessment	Standalone Quizzes taken in isolation without connection to lessons.	Continuous Pre-lesson diagnostic, post-lesson 5-question checkpoint, and adaptive item difficulty scaling.
6. Results & Reports	Score Only Single test percentage view with static recommendations.	360° Loop AI explanation tutor for students, curriculum gap heatmaps for teachers, and weekly digests for parents.

Interaction Architecture: The Continuous Feedback Loop

💡 **Design Philosophy Alignment:** Every interaction follows EduPath's *Modern Educational Minimalism* principles — purposeful visual hierarchy, clear next-step calls to action, immediate positive feedback, and reduction of cognitive clutter for young learners and parents alike.
